Form 801 Attachment -- Karen Douglas

**10/19/2017 Colorado Law's Women in Energy Law and Regulation Conference
Boulder, Colorado**

3.2 Payment Description. Provide a specific description of the payment and its agency purpose and use.

Karen Douglas participated in the Women in Energy Law and Regulation Conference on behalf of the California Energy Commission. Commissioner Douglas participated in the October 20, 2017, session on "Siting Energy Facilities." The panel considered the challenges surrounding the siting of new energy facilities (including generation and transmission).

This conference provided an essential opportunity to meet with government officials and stakeholders from other states to discuss the siting of renewable energy and transmission projects. Specifically, California will benefit from Commissioner Douglas' participation in this conference by learning about the best practices and lessons learned that other states have encountered while siting renewable energy and transmission projects. In addition, she was able to share California's results and experiences with recent landscape-scale planning processes such as the Desert Renewable Energy Conservation Plan, the San Joaquin Valley Least Conflict Solar Project, and the Renewable Energy Transmission Initiative 2.0.
