

**CALIFORNIA ENERGY COMMISSION**

1516 NINTH STREET  
SACRAMENTO, CA 95814-5512  
www.energy.ca.gov

**PHASE 1 RESULTS**

**Development, Demonstration and Deployment of Environmentally and Economically Sustainable Biomass-to-Energy Systems for the Forest and Food Waste Sectors**  
**EPIC GFO-15-325**  
**Amended December 9, 2016**

On June 27, 2016, the California Energy Commission (Energy Commission) released a 2-phase competitive solicitation to fund applied research and development (AR&D) activities and technology demonstration and development (TD&D) activities to advance bioenergy electricity generation. This solicitation is responsive to the Governor's 10-30-2015 Proclamation of a State of Emergency to protect communities against unprecedented tree die-off. Up to \$23 million in Electric Program Investment Charge (EPIC) funding is available to fund applications in:

- Group 1: AR&D: Efficient, Sustainable and Lower-Cost Bioenergy: Innovations to Improve Woody Biomass-to-Electricity Systems (\$5,000,000)
- Group 2: TD&D: Demonstrate and Evaluate Environmentally and Economically Sustainable Woody Biomass-to-Electricity Systems (\$10,000,000)
- Group 3: TD&D: Demonstrate and Evaluate Environmentally and Economically Sustainable Food Waste Biomass-to-Electricity Systems (\$8,000,000)

The Energy Commission received fifty-seven Abstract Packages by the due date of September 8, 2016. Each abstract was screened on a pass/fail basis using the criteria in the solicitation. ~~Fifty-five~~ **Fifty-six** proposals passed the Administrative Screening.

The attached **amended** table titled "Phase 1 Results" identifies each applicant selected to participate in Phase 2, involving a submission of a complete formal application, and includes the requested funding amount by each applicant.

Funding of proposed projects resulting from this solicitation is contingent upon the selection during phase 2 and approval of selected projects at a publicly noticed Energy Commission Business Meeting and execution of a grant agreement. If the Energy Commission is unable to timely negotiate and execute a funding agreement with an Applicant, the Energy Commission, at its sole discretion, reserves the right to cancel or otherwise modify the pending award, and award the funds to another applicant.

In addition, the Energy Commission reserves the right to: 1) add to, remove, or shift funding to make additional awards and 2) negotiate with successful applicants to modify the project scope, schedule, and/or level of funding.

This notice is being mailed to all parties who submitted an application to this solicitation and is also posted on the Energy Commission's website at: [www.energy.ca.gov/contracts/](http://www.energy.ca.gov/contracts/).

For information, please contact Crystal Presley-Willis at (916) 654-5067 or Crystal.Presley-Willis@energy.ca.gov.

Crystal Presley-Willis  
Commission Agreement Officer

Development, Demonstration and Deployment of Environmentally and Economically Sustainable Biomass-to-Energy Systems for Forest and Food Waste Sectors

## Phase 1 Results

Group 1: Efficient, Sustainable and Lower-Cost Bioenergy: Innovations to Improve Woody Biomass-to-Electricity Systems

November 1, 2016

Project Number	Project Applicant	Title	Energy Commission Funds Requested	Match Funds	Abstract Screening Status
<b>PASSED</b>					
1	The Regents of the University of California on behalf of Berkeley campus (Renewable and Appropriate Energy Laboratory)	Quantifying Co-Benefits of the Electricity Generation from Woody Biomass and Expanded Forest Treatment	\$1,500,000	\$0	Passed
7	University of California, Riverside	Development of Efficient Conversion Process from Woody Waste to Electricity by Steam Hydrogasification	\$860,000	\$0	Passed
11	Clean Energy Systems, Inc.	Negative Carbon Biomass	\$1,500,000	\$460,000	Passed
13	All Power Labs, Inc.	The Nexus of Clean Energy, Healthy Forests, and a Stable Climate: Innovative Biomass Gasification for Sustainable Forest Management	\$1,500,000	\$750,000	Passed
14	University of California, Davis	An Online Application for Decision Support in Siting Woody Biomass-to-Electricity Facilities in California	\$1,222,284	\$28,532	Passed
15	Taylor Energy	Biomass-to-Electricity: Pilot-Scale Testing of Baseload Compared to Flexible Power	\$1,499,000	\$0	Passed
24	Lawrence Berkeley National Laboratory	Mitigating Fire Risk and Climate Change by Matching Forest Biomass Resources with Community Infrastructure, Energy Demand, and Power Generation Opportunities	\$1,500,000	\$0	Passed
26	Altex Technologies Corporation	Small Scale Forest Waste Power System	\$1,499,944	\$0	Passed
39	InnoSeptra, LLC	Biomass Gasification and Cleanup for Power Generation with Higher Efficiency & Lower Emissions	\$1,500,000	\$150,000	Passed
44	Biogenic Energy, LLC	Woody Biomass to Electricity via Supercritical Water Oxidation	\$1,500,000	\$0	Passed
53	Lawrence Livermore National Laboratory	Assessment of Technologies to Improve the Economics of Electricity Generation from California Forest Fire Hazard Reduction Treatments	\$400,000	\$0	Passed
<b>Total</b>			<b>\$14,481,228</b>	<b>\$1,388,532</b>
