**Addendum 4****PON-11-602**

Alternative Fuel Infrastructure

April 23, 2012

The purpose of this Addendum is to increase the amount of funding that may be used for passing projects in the first round of scoring.

This changes:

1. Section 8. Funding Information

8. Funding Information

The maximum funding available for this solicitation is \$30,310,000. However, the Energy Commission reserves the right to increase this amount up to \$60 million.

The Energy Commission reserves the right to reduce an award to an amount deemed appropriate in the event the maximum funding available for this solicitation does not provide full funding for each of the top-scoring applications. In this event, the Grantee and the Energy Commission shall meet and reach agreement on a scope of work commensurate with the level of available funding.

In order to encourage "CEQA-ready" projects and to ensure timely encumbrance of funds, the Energy Commission will conduct two rounds of scoring. The first round of scoring will fund up to ~~\$9.84~~ **\$20** million in passing projects. Remaining funds will be applied to the second round of scoring. See Section 14 (Selection of Projects and Award Process) for details.
