**REVISED NOTICE OF PROPOSED AWARD****Alternative and Renewable Fuel and Vehicle Technology Program****Grant Solicitation PON-13-606
Electric Vehicle Charging Infrastructure
July 03, 2014**

On November 8, 2014, the California Energy Commission (Energy Commission) released a Grant Solicitation and Application Package entitled "Electric Vehicle Charging Infrastructure" under the Alternative and Renewable Fuel and Vehicle Technology Program (ARFVTP). This grant solicitation was an offer to fund electric vehicle charging infrastructure in four categories to support growth of electric vehicles as a conventional method of transportation and adoption of plug-in electric vehicles over a wide range of California's population and socio-economic classes. The grant solicitation announced that there is a total of \$6.0 million available for the agreements resulting from this solicitation and that the Energy Commission, at its sole discretion, reserves the right to increase or reduce the amount of funds available.

The attached table, "Revised Notice of Proposed Awards", identifies additional applicants selected and recommended for funding by Energy Commission staff and includes the amount of recommended funding and score. This notice is being mailed to those applicants and is also posted on the Energy Commission's website at: <http://www.energy.ca.gov/contracts/index.html>.

Funding of proposed projects resulting from this solicitation is contingent upon the approval of these projects at a publicly noticed Energy Commission Business Meeting and execution of a grant agreement.
